

UpToDate®

Bitesize training sessions

To support our customers, we are setting up monthly short online training sessions, these will cover several different topics and can be accessed live where you can ask questions of the presenter. We will add these to a library so they can then be viewed on demand at any time.

1). Covid-19 resources

August 12th @ 2.00pm BST. Duration 30 mins

In this session we will show you where to quickly find the resources related to Covid-19 including patient information and the latest news

Please use the following link to access [here](#)

2). UpToDate General overview

September 9th @2.00pm BST. Duration 60mins

For this session we will walk through a typical clinical question you might ask using UpToDate, then show you how UpToDate brings the latest available evidence at the point of care and beyond.

Please use the following link to access [here](#)

3). Practice Changing Updates

October 13th @ 2.00pm BST. Duration 30 mins

Please use the following link to access [here](#)

This is perhaps one of the most important elements of the UpToDate platform, as new evidence is released and clinical trials are completed, our team of world-renowned Authors and Editors review the content and make

the necessary updates to the recommendations. These can have a profound impact on the way you approach the treatment of patients at the point of care.

Please contact your account manager for details on how to access these sessions live, or alternatively the online library after the events.

If you have a suggestion on a topic you feel would be beneficial please do tell your account manager.
